

**LD 489 Language:** *The people of the State have the right to a clean and healthy environment and to the preservation of the natural, cultural and healthful qualities of the environment. The State may not infringe upon these rights. The State shall conserve, protect and maintain the State's natural resources, including, but not limited to, its air, water, land and ecosystems for the benefit of all the people, including generations yet to come.*

Dear Representatives of the Maine State Legislature,

As staff, volunteers, and board members of lake, river and watershed stewardship organizations and land trusts, we are writing to urge you to support the Pine Tree Amendment. We believe passage of this amendment will be important for the preservation of the Maine we love.

The Pine Tree Amendment is a profound statement of values that resonates with our mission. We protect forests, mountains, wetlands, coastlines, lakes, and rivers because we believe that all people in Maine should have access to a clean and healthy environment.

We know that Maine people share these values. Like us, they walk the trails, fish in the lakes, paddle the rivers, hunt and forage for food in the woods and fields, and bring their children out to enjoy the beauty of Maine wherever they find it. We also know that the Maine state government shares these values too, particularly through the popular Land for Maine's Future program.

We believe that all people in Maine should have a constitutional amendment which provides a right to the preservation of the natural, cultural, and healthful qualities of the environment to benefit today and future generations.

We urge you to support the Pine Tree Amendment.

Sincerely,

NAME      TOWN      WATERBODY/PLACE OF INTEREST      EMAIL
